The line graph displays the daily number of COVID-19 cases in the United States from September 10 to September 21, 2020. The y-axis represents the number of cases, ranging from 0 to 100,000 in increments of 20,000. The x-axis shows the dates from Sep 10 to Sep 21. The data points are connected by a solid black line, and each point is marked with a black dot. The graph shows a sharp increase in cases starting around September 10, peaking around September 14, and then declining.
