The graph displays the daily count of COVID-19 cases in the United States. The x-axis represents time, with labels for August 3, August 10, August 17, August 24, August 31, and September 7. The y-axis represents the number of cases, with a grid line at 100,000. The data points, connected by a purple line, show a period of low case counts (near zero) from August 3 to August 31. On August 31, there is a sharp vertical increase in cases, reaching a plateau of approximately 100,000 cases by September 7. A vertical dashed red line is positioned at approximately August 31, marking the date of the data collection.

The graph displays the daily number of COVID-19 cases in the Netherlands. The data shows a period of low activity followed by a significant increase starting on September 1st. The vertical dashed red line marks the date of the first lockdown.
