The graph displays the daily number of cases from June to September. The y-axis represents the number of cases, with a scale from 0 to 1000. The x-axis shows the months of June, July, August, and September. The data is represented by a pink line with circular markers at each data point. The most prominent feature is a sharp peak in early July, reaching nearly 1000 cases. Following this peak, the number of cases drops significantly and remains relatively low, with several smaller peaks occurring throughout the summer months.
